

mine&make

Startup | Data Science | Product Innovation

The following position is open:

NLP-Developer

mine&make GmbH, Stuttgart / Germany, Mai 2022

The Company

mine&make is a tech company based in Stuttgart. We develop a AI-powered Product Innovation platform that helps our customers to understand their products' future concretely, to identify new business opportunities for their products, and to redesign them. We are data scientist, product strategist and concept developer. We automate product innovation to make it quicker and more cost-effective.
